Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to the first product i.e. a nucleic acid of a p51 promoter region.

Group II, claim(s) 6, drawn to method of cloning other p51 promoter region.

Group III, claim(s) 7, 8, and 11 drawn to antisense that enhances or inhibits the expression of the p51 gene, and pharmaceutical comprising nucleic acid.

Group IV, claim(s) 9, drawn to method of screening drugs.

Group V, claim(s) 10, drawn to a compound.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: PCT Rule 13.2 and 37 C.F.R. 1.475 define "special technical feature " as those technical features that define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art." 37 C.F.R. 1.475(d) states that, if multiple products, processes of manufacture, or uses are claimed, the first mentioned in the claims will be considered as the main invention, along with each of the other categories related thereto. The main invention is a p51 promoter DNA. As the ISR indicated, Motonobu et al., (a copy

provided with ISR, 1998, Nature Medicine) disclose a p51 promoter DNA; therefore, no special technical feature exists for Group I as defined by PCT Rule 13.2, because it does not define a contribution over the prior art. Since the main invention lacks a "special technical feature," unity of invention is lacking and restriction is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

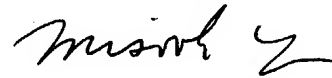

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
